

Oreo Supreme

The big ice cream cake I make

23 Oreo cookies or about 1 ½ cup Oreo crumbs.

½ gallon vanilla ice cream,

½ c margarine,

1 c chocolate chips,

2 cups icing sugar,

1 1/2 cups evaporated milk,

2 egg yolks beaten,

1 cup crushed peanuts, and

One large container cool whip.

Put a light layer of Oreo crumbs over bottom of 11 X 15 X 3" deep pan.

Using ½ gallon of ice cream put a layer over crumbs and freeze till solid. (I dump the ice cream out of pail, slice it and lay it on)

Melt margarine and chocolate chips. Then add icing sugar and milk and stir well. (this is where it gets really heart smart)

Add beaten yolks and continue to cook until thick. Cool. Then pour over ice cream. Top with peanuts and cool whip and freeze. Put some Oreo crumbs on top.
